

What in the World Happened Today

Date: 3/25/13

Teacher: Ms. Debi & Ms. Danielle

Homebase: Toddler 1

Highlights

Happy Monday Toddler 1, hope we all had a great weekend. We started our day by heading outside for some exercise. We were all very anxious to get outside today, all our friends were chanting "outside, outside"! While outside our friends played "ring around the rosie", and yelled the song "daddy shark". Everybody was very busy outside!

For Sciencerocks today Miss Debi put a couple of pinecones in a sensory bottle full of water. She explained to her friends that in a couple of days the pinecones will close up. This happens because the pinecones slowly start to absorb the water, and because of this extra water pressure it causes the pinecone to close up. We all wanted to get a close look at the pinecones bobbing up and down in the water. Each friend took a magnifying glass hoping to see the pinecone close up. But we explained to everybody that it will take a few days and that we need to give it some time.

☺
